| <p><b>Aviation Flight</b><br/>123 Cessna Drive<br/>R.L. Jones Airport<br/>Tulsa, OK 74132</p> | <p>Tuition for Flight Program is based on the entire program length (excluding any overage hours taken to complete a lesson), the flight program includes the minimum number of flight hours and ground school classes required for each rating and certificate by The Federal Aviation Administration (FAA). If the required number of course flight training hours are reached during a term and a passing final grade has not been earned the student will be issued a failing grade. A student may request additional flight training hours during the sixty days following the original scheduled end of the term to complete course objectives and request a grade change. These additional hours are available at the student's expense based on hourly fees below, or the student may choose to receive the failing final grade and retake the term in full at full cost. Books and equipment are approximate, and tax is not included. The College reserves the right to adjust the hourly flight rates with a fuel surcharge should one become necessary.</p> |
| <p><b>Technology Main</b><br/>8820 East Pine St<br/>Tulsa, OK 74115</p>                       | <p>Tuition for technical programs is based on the entire program length. An academic year is 30 weeks of instruction.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <p><b>BS/AAS Program</b></p>                                                                  | <p>A \$150.00 technology fee is required for each course taken via the Learning Management System plus a \$50 lab fee for the online science course. This fee does not apply to the AMT (diploma) Hybrid Program core courses. The technology fee is already included in the tuition for the fully online version of the BS program, which is the BS-DE program.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

Schedules are reserved on a first-come, first-served basis and class schedules vary for each class start date. A waiting list may exist for some class starting dates. In the event Student has completed all requirements to reserve a class schedule and is on a waiting list, Student will be placed on the next available starting date scheduled. Schedules are by request only. The College reserves the right to change schedules and move students.

**For all programs**, all tuition and program lengths are based on a student attending the full program for which he or she is enrolled. Should a student bypass any portion of that program by the methods described in the College Catalog, that student's balance owed and program length will be reduced accordingly. Reductions will be documented on the transcript and or ledger card.

**Transfer of credits**, students will receive a credit to their book/course fee of \$75.00 for each course transferred in for the online Gen Eds and Technology Management DE (online only)– Bachelor of Science program.

**For all Aviation Maintenance Technology programs**, the cost of books and tools is estimated, with the exception of the project workbooks which total \$250 of the approximated Books & Tools cost. Students are only charged for books and tools actually purchased at the College.

**For all programs except Technology Management and Aviation Flight programs**, the cost of books and tools are estimated. Students are only charged for books and tools purchased at the College.

**For all technical programs**, an academic year is defined as completion of 24 semester credit hours in 30 weeks of attendance or 900 clock hours. The satisfactory completion of the credit hours or clock hours in the academic year is necessary before a student may progress to the next level of academic standing.

**For the Aviation Maintenance Technology – Hybrid** (partial distance education) **Program**, the distance education portion of the program consists of seven 8-week terms (3 concurrent courses) followed by five 6-week terms (4 concurrent courses) accomplished on ground for the Diploma Program

and an additional two 6-week terms (3 concurrent courses) of General Education that can be taught either on ground or online for the Associate Degree Program.

**For the Bachelor’s Degree Program**, an academic year is defined as completion of 24 semester credit hours in 30 weeks. The satisfactory completion of the credit hours in the academic year is necessary before a student may progress to the next level of academic standard. To be a full-time student in the Bachelor of Science program a student must attempt a minimum of 8 semester credit hours per ten-week term. A student attempting 6 or 7 semester credit hours will be considered a three quarter-time student and a student attempting either 4 or 5 semester credit hours will be considered a half-time student. A student that does not maintain full-time status may have his/her Financial Aid disbursements adjusted accordingly. Bachelor’s classes are generally scheduled Monday through Thursday. Spartan College of Aeronautics and Technology reserves the right to change or cancel classes due reasons such as to low enrollment.

**For the Aviation Flight Program**, the cost of books and tools is estimated, except for the iPads which total \$1700 of the approximated Books & Tools cost. Students are only charged for books and tools actually purchased at the College. An academic year is defined as completion of 24 credits in 30 weeks of attendance. The satisfactory completion of the credit hours in the academic year is necessary before a student may progress to the next level of academic standing.

Due to the nature of a flight training program, there may be times the College must limit the number of students who can start their program on a given start date. When that happens, the college will prioritize seats for those enrolled students that have demonstrated they meet all the admissions criteria and have completed all the necessary steps to start school including receiving medical clearance. If there are more students ready to start school beyond the number of seats available, the College will prioritize candidates based on their enrollment date.

**California Residents Only - Student Tuition Recovery Fund (STRF)**

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition. You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

STRF calculation equals (\$2.50) per (\$1000) total institutional costs.

## Miscellaneous Fees

| Possible Misc. Fees All Programs         |              | Flight Training/Testing                                               |                         |
|------------------------------------------|--------------|-----------------------------------------------------------------------|-------------------------|
| Bypass Examination Fee (Per Credit Hour) | \$25.00      | Cessna 172 & Piper Archer                                             | \$210.00                |
| Change of Program Fee                    | \$10.00      | Piper Seminole PA 44 (Multi-engine)                                   | \$328.00                |
| Diploma Covers                           | \$10.00      | Aviation Training Devices (ATD)                                       | \$137.00                |
| Online Lab Fee                           | \$50.00      | Stage Checks                                                          | \$75.00                 |

| Replacement Certificate (AMT / NDT)      | \$10.00      | Module Classroom Instruction (Per module)                             | \$525.00                |
| Replacement Identification Card          | \$5.00       | Knowledge Test                                                        | \$165.00                |
| Replacement of Diploma                   | \$25.00      | Flight Test – Private, Instrument, Comm., MEL and SEL, CFI, and CFII* | \$700.00 - \$1000.00 ea |
| Return Check Fee                         | \$30.00      | Discovery Flight                                                      | \$199.00                |
| Transcripts                              | \$5.00       | Frasca Level 5 FTD                                                    | \$165.00                |
| Course repeat charges                    | Tuition Rate | Flight No Show Fee***                                                 | \$75.00                 |

An international fee of \$2,000, will be charged to students requiring an F-1 or M-1 visa.

**\*Flight Test:**

Each flight test is an additional charge not included in the Tuition and Fees. The test fees estimated and are due from the student at the time of the test, payable to the examiner (third party).

**\*\*Online Courses:**

A \$150.00 technology fee is required for each course taken via the Learning Management System plus a \$50 lab fee for the online science course. This fee does not apply to the AMT (diploma) Hybrid Program core courses, ESL Course, or Private Pilot (FAA Part 61) – Flying. The technology fee is already included in the tuition for the fully online version of the BS program, which is the Technology Management DE (Online Only) - Bachelor of Science.

**\*\*\*Flight No Show Fee:**

Each flight lesson is a scheduled appointment and has the same priority as a flight ground course or General Education class. It is a joint commitment between the flight instructor and student. Failure to attend a flight lesson without notification the day prior will result in a “no-show” for that flight lesson. Successful completion of the program depends on maintaining a consistent flight schedule. A minimum of 18 flight hours per month or 4 activities a week is the College’s guideline for flight proficiency maintenance and must be maintained even when enrolled in Flight ground courses or General Education courses.

## Avocational Private Pilot (FAA Part 61) - Flying

### Tuition and Fees:

| Course Title                         | Clock Hrs. | Per Hour Flight Fees | Per Hour Ground Lesson | Ground Course Theory-Based Online Fees | Insurance | *Estimated Course Cost Based on Minimum Hours |
|--------------------------------------|------------|----------------------|------------------------|----------------------------------------|-----------|-----------------------------------------------|
| Private Pilot (FAA Part 61) - Flying | 65 minimum | \$210                | \$75                   | \$426 (389+Tax)                        | \$150     | \$10,851                                      |

Please refer to this Catalog Supplement for other fees such as those assessed for Federal Aviation Administration Testing.

\*Minimums include 25 Hours of Online Ground Instruction, 30 Hours of Dual Flight Instruction, and 10 Hours of Solo Flight Training (40 Hours of Total Minimum Flight).

### ESL Course Information

#### Tuition and Fees:

| COURSE TITLE | Clock Hrs. | Tuition  | Software Subscription | IT Equipment Fee | Total Course Cost |
|--------------|------------|----------|-----------------------|------------------|-------------------|
| ESL Course   | 600        | \$16,695 | \$525                 | \$875            | \$18,095          |

**Fees are based on the required six hundred (600) clock hours.**

Successful completion of the program results in a certificate of completion.

The course can be repeated if the student does not successfully complete in 600 clock hours. In that event, a new Enrollment Agreement and course fees will be assessed.

## CLASS SCHEDULES

| Program / Shift                                                                                                                                                               | Begin   | End     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|---------|
| <b>Day Shift (Monday through Friday)</b>                                                                                                                                      |         |         |
| Aviation Maintenance Technology (AMT)                                                                                                                                         | 7:30 am | 2:30 pm |
| Aviation Electronics Technology (AET)                                                                                                                                         | 7:30 am | 2:30 pm |
| Nondestructive Testing Technology (NDT)                                                                                                                                       | 7:30 am | 2:30 pm |
| Quality Control Management (QCM)                                                                                                                                              | 7:30 am | 2:30 pm |
| Aviation Maintenance Technology (AMT) - Hybrid Ground Classes                                                                                                                 | 7:30 am | 2:30 pm |
| <b>Bachelor of Science Technology Management</b>                                                                                                                              |         |         |
| BSTM on-ground classes can be scheduled M-F 11:00am – 11:00pm but typically are scheduled M-TH 6:00pm – 10:48pm                                                               |         |         |
| <b>Aviation Flight</b>                                                                                                                                                        |         |         |
| Ground classes are scheduled anytime between 8:00am through 6:00pm, Monday through Friday. Nights, weekends, and holidays may be required to meet Flight lesson requirements. |         |         |

*Students are expected to complete their final term by the Graduation Date corresponding to the Start Date listed on their Enrollment Agreement. Graduation dates may change in the event of weather-related school closings, punitive grades issues, or if a student is granted a Leave of Absence (LOA).*

*General Education and Technical: Classes are scheduled Monday through Friday, Day & Night courses follow the same curricula and policies, both use the same equipment and facilities. Appropriate meal periods (30 minutes) and hourly breaks (10 minutes).*
