

Student-Right to Know Act

According to regulations published by the Department of Education based on the Student Right-to-Know Act, the Student Right-to-Know (SRTK) Graduation Rate is described as follows:

It is based upon students who entered as full-time, first-time freshmen and graduated within 150% of the length of their program. For example, associate degree-seeking freshmen, this 150% measure describes students graduating from a two-year program within three years.

These rates are the graduation/completion data from Spartan College of Aeronautics and Technology – Tulsa, Oklahoma:

OVERALL GRADUATION RATE AND TRANSFER-OUT RATE

The overall graduation rate is also known as the "Student Right to Know" or IPEDS graduation rate. It tracks the progress of students who began their studies as full-time, first-time degree- or certificate-seeking students to see if they complete a degree or other award such as a certificate within 150% of "normal time" for completing the program in which they are enrolled.

Some institutions also report a transfer-out rate, which is the percentage of the full-time, first-time students who transferred to another institution without completing at the current institution.

Note that not all students at the institution are tracked for these rates. Students who have already attended another postsecondary institution, or who began their studies on a part-time basis, are not tracked for this rate.
