

Student-Right to Know Act

According to regulations published by the Department of Education based on the Student Right-to-Know Act, the Student Right-to-Know (SRTK) Graduation Rate is described as follows:

It is based upon students who entered as full-time, first-time freshmen and graduated within 150% of the length of their program. For example, associate degree-seeking freshmen, this 150% measure describes students graduating from a two-year program within three years.

These rates are the graduation/completion data from Spartan College of Aeronautics and Technology – Riverside, California:

OVERALL GRADUATION RATE BY GENDER

Percentage of Full-time, First-time Students Who Began Their Studies in 2020-21 and Graduated Within 150% of "Normal Time" to Completion for Their Program

OVERALL GRADUATION RATE BY RACE/ETHNICITY

Percentage of Full-time, First-time Students Who Began Their Studies in 2020-21 and Graduated Within 150% of "Normal Time" to Completion for Their Program

GRADUATION RATES BY TIME TO COMPLETION

Graduation rates can be measured over different lengths of time. "Normal time" is the typical amount of time it takes full-time students to complete their program. For example, the "normal" amount of time for many associate's degree programs is 2 years. Not all students complete within the normal time, so graduation rates are measured by other lengths of time as well, including "150% of normal time" (e.g., 3 years for a 2-year program) and "200% of normal time," or twice as long as the normal time (e.g., 4 years for a 2-year program).
