DISCOVER ALTITUDE

The Altitude Pilot Pathway is a unique opportunity for eligible Spartan College students at the Tulsa Flight Facility to connect with Allegiant as they continue progressing toward a career as a professional pilot. Students may be eligible to enter the Altitude Pilot Pathway after earning their Commercial Pilot Certificate. During the Altitude journey, cadets will:

- Train for additional FAA certificates and ratings through CFII.
- Develop critical leadership skills
- Learn Allegiant culture and values first-hand
- Interview while building flight hours

ABOUT THE PATHWAY

This innovative pathway provides coaching, instruction and support for current and future cadets to:

- Meet senior Allegiant executives
- Learn about the airline, bases, and culture
- Access an exclusive online community through the Altitude mobile app

Additionally, Altitude cadets will have priority opportunities to become an Altitude CFI* and build their required flight hours.

Up to $50k Loan Repayment

after 3 years of Allegiant service

Conditional on meeting performance expectations

Tulsa Flight Facility:
(Tulsa Riverside Airport)
123 Cessna Drive, Tulsa, OK 74132

YOUR PATH TO ALLEGIANT

FLIGHT TRAINING

Pilots are required to learn continuously. Even after cadets master basic flight skills, training continues with every new aircraft and role throughout their careers.

Milestones earned prior to entering the pathway :

- Private Pilot Certificate
- Instrument Rating
- Commercial Pilot Certificate

Milestones earned during the pathway :

- Multi-Engine Rating
- Flight Instructor Certification
- Flight Instructor Instrument Certification

LEADERSHIP TRAINING

Altitude flight instructors will complete leadership training, enhancing their skills, knowledge, and ultimately their effectiveness in the workplace and in the flight deck.

ALLEGIANT APPLICATION

Once Leadership Training is completed, CFIs can apply for a position at Allegiant. If accepted candidates will receive a conditional offer contingent upon remaining in good standing with the school, completion of required ATP {Airline Transport Pilot) hours, and other Allegiant employment qualifications.

BUILDING ATP HOURS

To obtain an Airline Transport Pilot {ATP) certificate, candidates must meet minimum flying hour requirements, which can be done as an Altitude flight instructor.

Specialized Training Opportunities with Allegiant

FLY AT ALLEGIANT

Upon graduating from the Altitude Pilot Pathway, cadets will have the opportunity to begin their career at Allegiant.
