SPARTAN
COLLEGE OF AERONAUTICS AND TECHNOLOGY

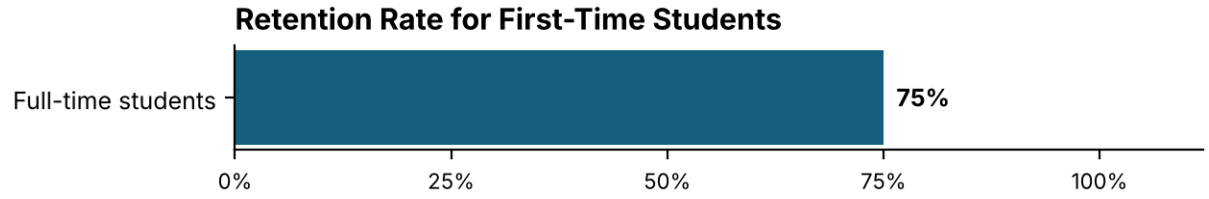

Student Right-to-Know Act

Under the Student Right-to-Know Act and 34 CFR 668.45, the graduation rate is based on students who entered as full-time, first-time degree- or certificate-seeking undergraduates and completed their program within 150% of the normal time for completion. For example, for students in a two-year program, the 150% measure describes students who completed within three years.

These rates are the graduation/completion data for Spartan College of Aeronautics and Technology – Broomfield, Colorado, for students who entered between September 1, 2022 – August 31, 2023, as reported to the U.S. Department of Education's Integrated Postsecondary Education Data System (IPEDS).

Retention Rates for First-Time Students

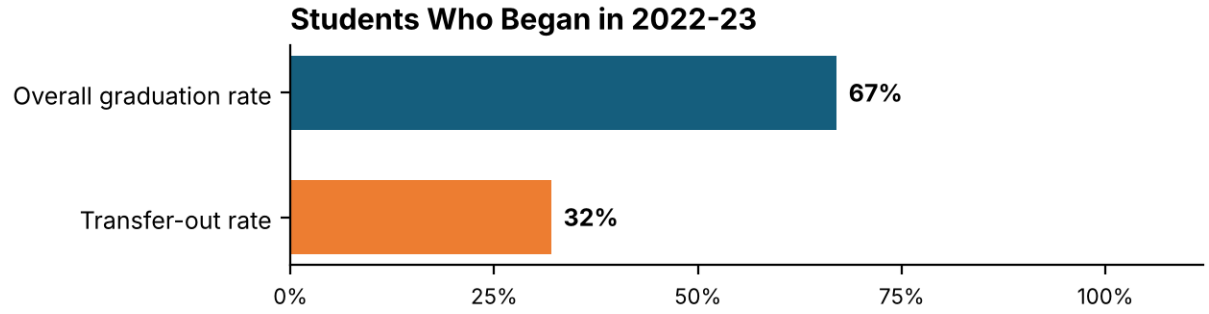

Retention rates measure the percentage of first-time students who return to the institution to continue their studies the following fall.

Percentage of students who began their studies in Fall 2023 and returned in Fall 2024 (most recent rate published on College Navigator)

Overall Graduation and Transfer-Out Rate

The overall graduation rate tracks the progress of students who began their studies as full-time, first-time degree- or certificate-seeking students to see if they complete a degree or other award, such as a certificate, within 150% of "normal time" for completing the program. The transfer-out rate is the percentage of those students who transferred to another eligible institution without completing at this institution.

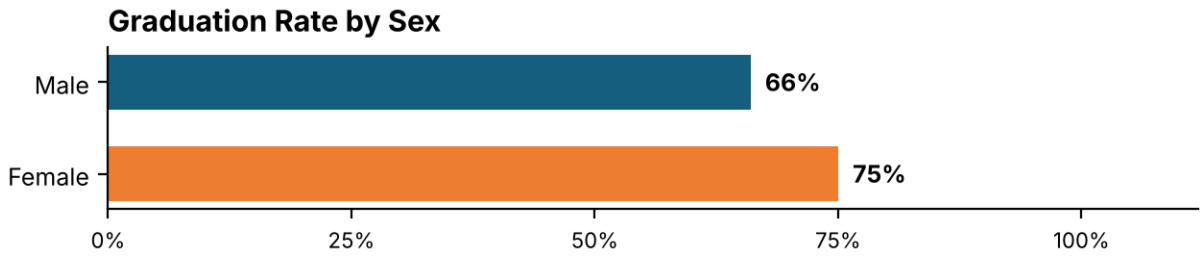

66 of 99 students graduated within 150% of normal time; 32 of 99 transferred out.

Note: Not all students are tracked for these rates. Students who previously attended another postsecondary institution, or who began their studies on a part-time basis, are not included. Students who left to serve in the armed forces, on an official church mission, or with a foreign aid service of the federal government, or who died

or became totally and permanently disabled, are excluded.

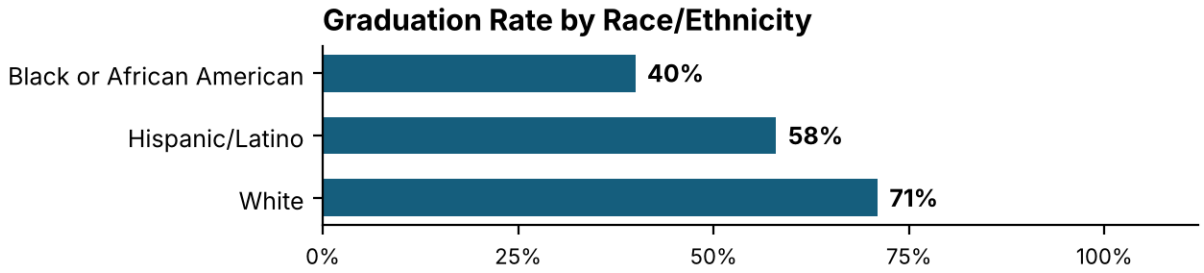

Graduation Rate by Sex

Percentage of full-time, first-time students who began in 2022-23 and graduated within 150% of "normal time".

Graduation Rate by Race/Ethnicity

Percentage of full-time, first-time students who began in 2022-23 and graduated within 150% of "normal time". Groups with no students in the cohort are not shown.

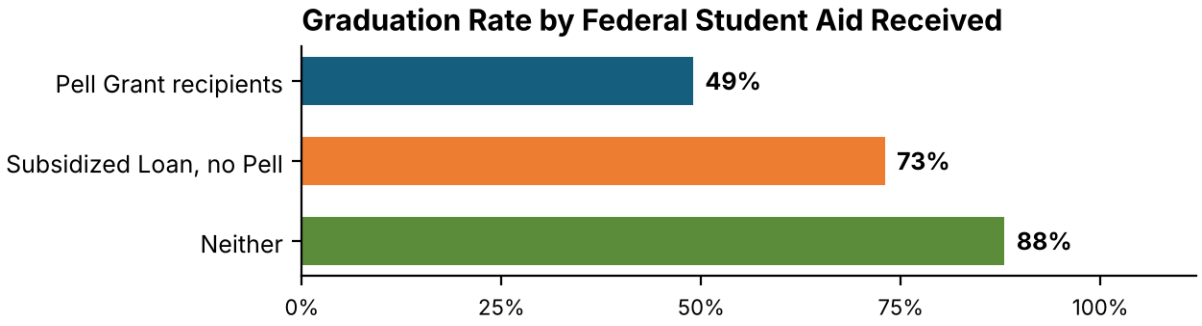

Too few students enrolled in the following group(s) to report with confidence and confidentiality: American Indian or Alaska Native; Asian; Native Hawaiian or Other Pacific Islander; Two or More Races; Race/Ethnicity Unknown.

Graduation Rate by Federal Student Aid Received

Graduation rates for the 2022-23 cohort, by whether students received a Federal Pell Grant or a Subsidized Direct Loan during the year they entered.

Group (aid received in entering year)	Students	Graduated within 150%	Graduation rate
Federal Pell Grant recipients	41	20	49%
Subsidized Direct Loan recipients who did not receive a Pell Grant	33	24	73%
Did not receive a Pell Grant or a Subsidized Direct Loan	25	22	88%
All students in cohort	99	66	67%

Graduation Rates by Time to Completion

"Normal time" is the typical amount of time it takes full-time students to complete their program.

Measure	Students	Graduated	Rate
Within normal time (100%)	99	49	49%
Within 150% of normal time	99	66	67%

Disclaimer

The rates in this publication are calculated from data the institution reported to IPEDS in the 2025-26 Graduation Rates component. College Navigator is updated after the Department of Education completes its review and may not yet display these figures.
